Hi Performance Sensor

This new full HD IP speed dome camera features the latest 2 mega pixel resolution (1080p) sensor with 60 pictures per second and ultra wide dynamic range including day/night function with mechanical IR cut filter and is equipped with an integrated motorised 30x optical zoom with autofocus.

EIS

The new DX version is equipped with EIS (Ernitec Image Stabilization) which enables the speed dome to capture objects at distance with very high precision without the image shake you get from other domes.

Designed For Constant Use

Orion DX domes are designed for round-the-clock pan/tilt/zoom operation in outdoor environments, and can be automatically directed to 256 pre-set positions, with endless 360° pan, they enable the surveillance of an extremely wide area.

Hi-POE

Orion DX812OPH offers easy and reliable installation with High Power over Ethernet (PoE+) which simplifies installation since only one cable is needed to carry power as well as video and PTZ controls. The camera mount is designed with easy bayonet mounting enabling connection to the wide range of Ernitec mounting accessories, including ceiling, wall, pole or corner installations.

IP66 Protection

Orion DX812OPH are IP66 protection against dust, rain and snow and can operate in extreme cold temperatures. The cameras' extreme cold control function ensures safe start-up from -45 °C (-49 °F). For extreme heat we have an operating temperature of +60°C (140°F) for an absolute maximum of four hours.

Ernitec Orion DX Series

30x Optical Zoom

Fitted with 30x optical and 8x digital zoom including autofocus lens. Using the tour guard function enables the camera to patrol the area. Whereby the camera can automatically go to different preset positions to check on different areas of a scene. When the camera is fully zoomed out you get a fantastic wide angle overview image from the dome when running full HD.

UWDR (Ultra wide dynamic range)

The domes come fitted as standard with ultra wide dynamic range enabling the dome to be fitted in extreme lighting conditions. With excellent colour reproduction.

Auto Tracking

The cameras support auto tracking, features include; Built-in Video Intelligence Program, Adjustable Maximum Tilt and Pan Angle Setting, Adjustable Detection Area Percentage / Sensitivity, Home Function Support, Guard Timer Setting. Function Activation by License Key. EDP No: 0070-10015

Internal Version

The range also boasts an internal version ideal for shopping malls, airports and other large indoor installations. We have several mounting options for wall and ceiling mount for both the internal and external dome.
