### Build 4600 Client

The Build4600 is a powerful video surveillance recorder that is optimized to work with our NVR Software for sensitive & long-term storage of IP/Megapixel cameras.

The Build4600 is engineered to optimize the way processor, memory, graphics, OS and software technology work together to deliver massive recording power

All systems have been hardware tested between 12 to 24 hours before leaving the assembling line to make sure that the system will run perfect 24 hours per day year after year.
