# Ernitec EVR software

## Network port settings

## Software version 6.x
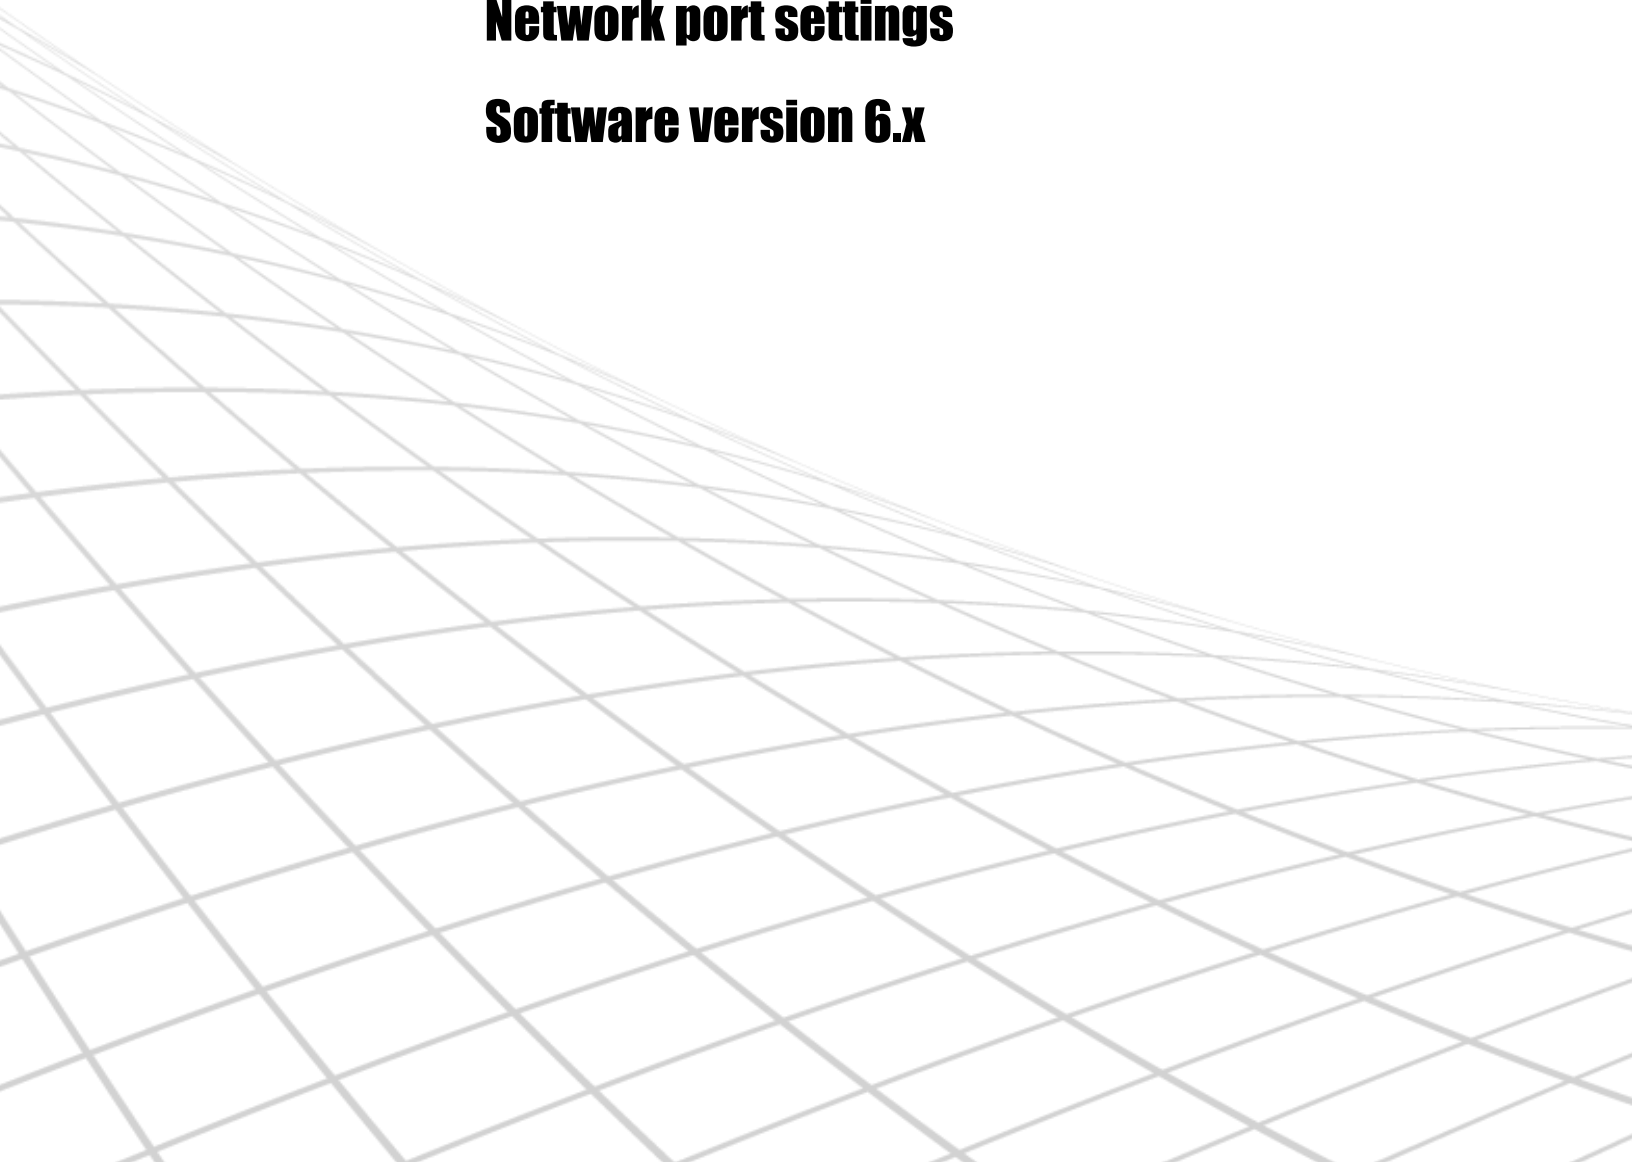

**Network Port settings for Ernitec EVR 6.x**

| | |
|---|---|
| SMTP port | 25 |
| Web browser port | 80 |
| POP3 e-mail notification port | 110 |
| | |
| RMC and SDK port | 5001 |
| SM server port | 5008 |
| DVR server port | 5009 |
| Watchdog server port | 5010 |
| Streaming server port | 5011 |
| | |
| Gateway Server Port | 9000 |
| HTTP server port | 9999 |

All port settings are TCP/IP

Remark:

DVRServer never contacts the applications or SMServer. However, if IP cameras are installed in the system, DVRServer contacts the IP cameras using TCP or UDP (TCP port 80) depending on the camera model.

For more information see EVR installation guide
