Ernitec Feature List	Updated on 29.08.2013		
for EVR software release 6.4			
Product Name/Version	PRO	Enterprise	Options
EVR SERVER			
Multi-disk non-fragmenting recording	٧	٧	٧
Modified RAID 0 for fault tolerance - continuous recording even after disk failure	٧	v	٧
NAS recording option	v	v	v
Archive schedule	х	v	v
NAS archive option	х	v	v
I/O Management	v	v	v
Alarm management	v	v	v
Pre/post event recording	v	v	V
Min/Max Video Retention	v	v	v
Unlimited video retention	v	v	V
Recorder health check and event generation (watchdog)	v	v	v
Watchdog event delivery via email, digital I/O	v	v	v
Watchdog event integration via TCP, SMTP, SMS	х	х	v
MJPEG Support for IP cameras*	v	v	v
MPEG4 Support for IP cameras*	v	v	v
H.264 Support for IP cameras*	v	v	v
Automatic camera finder*	v	v	v
Camera search and identification based on IP address	v	v	v
Edge storage synch support for IP cameras*	v	v	v
Multi-streaming support for IP cameras*	х	v	v
Direct analogue video Input (with compatible capture card)	v	v	v
Analogue PTZ protocols: Bosch, Dynacolor, Hitron, JVC, Lobeco, Panasonic, Pelco P/D, Samsung, Sensormatic, Videoalarm, VistaVK/VZM	٧	v	V
Analogue Matrix support: Bewator, Pelco CM6700, 6800, 9700	Х	v	V
Analogue audio recording	Х	v	V
IP audio recording*	Х	v	V
Two-way IP audio*	х	v	v
Recorder chaining (capture through gateway)	v	v	v
Multicasting support for local live-viewing	٧	v	v
Independently configurable remote live-viewing stream for IP cameras*	X	X	٧
Master/slave servers	Х	v	v
Centralized management for all servers in system	х	v	v
Number of recorders per single system	1	5	up 1o 100
Max number of cameras per recorder	50	64	64
Instant device replacement using original IP address	٧	v	v
seamless migration from analog to IP camera, without need for license change	٧	v	٧
Upgrade via licence key	v	v	v
Automatic client application update to latest version	v	v	v
Centralized camera driver update to all servers in the system	v	v	v
Centralized server software update to all servers in the system	x	v	v
Configuration settings backup	v	v	v
Restoring settings to same server	v	v	v

Product Name/Version	PRO	Enterprise	Options
Restoring settings to a different server (copy, cold-standby failover)	v	V	V
Automatic Ernitec Flash Backup & Restore	V	v	v
* only available for select cameras			
User Management			
Max number users per single system	5	10	up 1o 100
Muti-level user management	V	v	v
Controlling access to workstation client UI functions per user	V	v	V
Device and alarm allocation per user	٧	v	v
Map allocation	Х	v	v
Device access and use control	V	v	V
Active Directory Integration	Х	Х	v
User password control	٧	v	v
Enable/Disable user	V	v	v
User activity audit-trail database and reporting	Х	Х	V
Camera Management			
Enable/disable camera	V	v	V
Resolution (depending on camera capabilities)	V	v	v
Frame rate (depending on camera capabilities)	V	v	v
High-framerate camera support (up to 60fps)	٧	v	v
Quality (depending on camera capabilities)	٧	v	v
Different stream settings for recording and viewing (depending on camera capabilities)	Х	X	v
System load management	v	v	V
Reference image	V	v	v
Fully customisable motion detection masks	٧	v	v
Advanced Video Motion Detection (adaptive/hermeneutic)	٧	v	v
IP camera auto-finder and auto-discovery	٧	v	v
IP camera* based Video Motion Detection	٧	v	v
Fully customizable Privazy Zones*	٧	v	v
Camera recording schedules	٧	v	v

System Logs				

Product Name/Version	PRO	Enterprise	Options
Comprehensive system log information (including users, devices etc)	v	v	٧
System performance monitoring	v	v	v
Device storage information	v	V	v
Log file export	v	V	v
EVR VCA			
Integration with 3rd party video analytics via XML	Х	Х	٧
Video analytics metadata SQL database	Х	Х	v
Object tracking for visualization/ auto-zoom	Х	Х	v
People/ vehicle counting	Х	Х	v
Tamper detection	Х	Х	v
Camera shake elimination	х	х	v
Object classification and filtering	х	х	v
Zone presence, enter/ exit, appear/ disappear	х	х	v
Speed filter	х	х	v
Direction filter	х	х	v
Dwell	х	х	v
Tailgating	х	х	v
EVR ANPR+			
Fully integrated ANRP engine	Х	Х	٧
Web-based license plate list management application	X	X	V
Separate user management from DVMS, to enable "self-service" model	Х	Х	٧
Flexible access rules for permanent users, visitors	х	х	٧
Log of latest activities of a license plate	х	х	v
License plate information collection to metadata SQL database	Х	Х	٧
Country code recognition	х	х	v

Product Name/Version	PRO	Enterprise	Options
EASYMON CLIENT APPLICATION			
User authentication based on central management control	Х	v	٧
User authentication based on Active Directory	Х		v
Multi-site/recorder connections	Х	v	v
Drag/drop device into view	v	v	v
Automatic camera placement and sizing in view	v	v	v
Live View	v	v	v
Virtual cameras with digital zoom, for areas-of-interest	v	v	v
Dome camera (PTZ) control	v	v	v
Free crop-ratio for optimized screen resolution support	v	v	v
Auto-track and zoom to VCA objects	Х	Х	v
Highligh VCA objects and trails	Х	Х	v
Seamless playback access straight from Live View	V	v	v
VHS style playback control buttons	v	v	v
Playback slider for controlling playback direction/ speed	v	v	v
Time and activity search buttons	v	v	v
	v	v	v
Scalable time-slider for direct access to desired time in recorded footage Visual activity search with time-slider	v	v	N
Still image printing	v v	v	V
Still image export	v v	v	v
Sequence export time selection using time-slider	v v	v	v
	v	v	V
Multi-camera sequence export	v	v	v
Live/Recorded device view grouping (with auto-time synch) in tabs Multi-tab access to different device groups	V N	v	V
	v	V	V
Multi-monitor suport through individual tabs Full screen viewing of all cameras in group, with no additional items visible on	v	v	v
screen	v	v	v
Controlling the size of all control elements in the UI	v	v	v
Customisable user layouts	v	v	v
Multi-layout save feature	V	v	v
Device tree grouping	V	v	v
Device status information (connected/no-connection/connecting)	v	v	v
Customisable device icons	V	v	v
User language selection	V	v	v
User password change	v	v	v
HTTP API for 3rd party applications to activate a specific layout	v	v	v
Quick access to functions using keyboard shortcuts	v	v	v
Max viewable devices	50	64	64
Max devices in synchronised playback	8	16	16
WORKSTATION - CLIENT APPLICATION			
User authentication based on central management control	Х	v	v
User authentication based on Active Directory	X	x	v
Auto-application start on system start-up	٧	v	v
Auto-user login	v	v	v
Auto-workstation lock	V	v	v
Manual-workstation lock	V	v	v
Live View	v	v	v

Product Name/Version	PRO	Enterprise	Options
User language selection	v	٧	٧
User password change	v	v	v
Customisable user layouts	v	v	v
Multi-layout save feature	v	v	v
Multi-site/recorder connections	Х	v	v
Device tree grouping	v	v	v
Customisable device icons	v	v	v
Drag/drop device into view	v	v	v
Multiple virtual device windows from same camera	v	v	v
Pre-configured virtual matrix layouts (up to 4x4)	(up to 8 camera	V	v
Customisable double-click primary action cameras (real-time/playback)	v	v	v
Customisable double-click primary action I/O (on or off/pulse)	v	٧	v
Live/Recorded device view grouping (with auto-time synch)	v	v	v
Device status information (connected/no-connection/connecting/recording/alarm)	v	v	v
Max viewable devices	50	64	64
Max devices in synchronised playback	8	16	16
Real Time Video & Audio			
Show reference image	v	v	v
Image tools - digital zoom, brightness, contrast, rotate etc	v	v	v
Identify camera/microphone on map	Х	v	v
Programmable tours	v	v	v
Dome PTZ controls (see PTZ)	v	v	v
Image clipboard	v	v	٧
Analogue local monitoring directly from recorder, with customisable layout	x	٧	v
Playback Video & Audio
