

BASIC NVR1021

ernitec

With focus on functionalities and user-friendliness Ernitec sets new standards for IP video surveillance.

After just a short installation the system is ready for use and the software, which is delivered in multiple languages (Danish, English, French, Arabic and many more), will insure an easy operation of the system.

Like the other NVR models in Ernitec's product portfolio the BASIC+ NVR1021 is built around the latest Green Power technology with minimal power consumption and optimal performance.

The specially designed machine is equipped with two gigabit network interface cards which give a unique possibility to separate the video network and the company network, in order not to interfere with each other.

Furthermore the NVR software is installed on a separate hard disc and the video recordings are stored on a special chosen 24/7 Green Power hard disc that insures a high stability for the system. It is possible to upgrade both models with two extra 1TB 24/7 Green Power hard discs.

The simple construction makes the system easy to operate with the enclosed mouse, regardless if you logged on, see live pictures or search for recordings.

Like all the other Ernitec products the BASIC+ NVR 1021 is fully supported in Ernitec's CMS software EasyView™ (please look at the EasyView™ datasheet for more information).

- Up to 21 megapixel or 16 VGA cameras (can be upgradet to 42 megapixel or 32 VGA)
- D: 39.5 cm x W: 32.5 cm x H: 9.5 cm
- Separate hard discs for the NVR software and the recordings
- Up to 3TB 24/7 Green power hard disc
- 2 x Gigabit network interface cards
- JPEG, MPEG4 and H264
- 2 x monitor output (VGA/ DVI or VGA/DP)

BASIC NVR1021

Specifications

	BASIC+ NVR1021
Software function	
Maximum megapixel	42
Camera streams	max. 32
Window layout	1,4,6,8,9,10,16,25,36
2-way audio	yes
Digital zoom	live and recording
User defined schedule recording	yes
Alarm and motion recording	yes
Pre-event recording	max. 30 sec.
Post-event recording	yes
Watermark on recording	date and time into video stream
Snapshot	live and recording
Synchronized playback	4 channels
Event and time playback search	yes
PTZ-control	yes
Hot-spot and pup-up window	yes
E-mail and FTP notification	yes
Video and network loss disconnection	yes
Remote software	web client and PC client software
Export video	RAW and AVI
Multi user level permission	yes
Hardware specifications	
Operating temperature	+5 to +35 C
Storage hard disc	1TB
Max storage hard disc	3TB
Monitor output	2 (VGA/DVI or VGA/DP)
Gigabit network interface card	2
Dimensions (DxWxH)	39.5x32.5x9.5 cm
Order information	0075-00505
