## Full HD outdoor IR bullet Camera

- > Real-time 1080p Resolution
- > 3-9mm Lens
- > Mechanical IR-cut
- > Built-in IR illuminator
- > Edge storage
- > H.264 Main and High profil
- > Build-in Heater
- Power over Ethernet
- > 4 year Warranty

Ernitec Hawk SX 402 camera have a manual focal 3-9mm IR Lens, that provide perfect focus video streams in HD resolution along with H.264 and MJPEG compression in real time.

The advanced CMOS progressive scan sensor technology provides outstanding images in both normal and difficult lighting conditions by automatically adjusting white balance to ensure accurate color reproduction.

Recording and transmitting crystal clear images in Full HD format in complete darkness, up to 15 meters from the lens is made possible through the use of advance LED technology and highly efficient H.264 compression, which can result in bandwidth and storage savings of as much as 80 percent compared to M-JPEG and 50 percent compared to MPEG-4 (Part 2) compressions.

The Ernitec Hawk SX 402 can encode dual H.264 and M-JPEG streams simultaneously in real time to address different live or recording applications.

Power over Ethernet simplifies the installation of the Ernitec Hawk SX 402 cameras, while setup and programming are quickly accomplished using a browser interface. Remote health checks and software upgrades also ensure easy maintenance, as well as the highest reliability and system integrity.

With build-in heater the Ernitec Hawk SX 402 is build for cold weather applications and will still work in temperatures from  $-40^{\circ}$ C to  $+50^{\circ}$ C

The OnVif compliant APIs provide the necessary flexibility to ensure compatibility with most OnVif supported VMS platforms
