Ernitec Taurus SX602-12v40

Full HD Day & Night IP Camera

- > Resolution up to 1080p
- Mecanichal IR-cut
- > 12-40mm DC iris lens
- > Edge storage
- > H.264 Main and High profil
- Power over Ethernet (IEEE 802.3af)
- > Free App downloade
- > 4 year Warranty

The Ernitec SX 602 cameras simultaneously offer High Definition megapixel resolution in 1080p format along with H.264 and MJPEG compression streams in real time .

The advanced CMOS progressive scan sensor technology provides outstanding images in both normal and difficult lighting conditions by automatically adjusting white balance to ensure accurate color reproduction.

Recording and transmitting these crystal clear images in Full HD format is made possible through the use of highly efficient H.264 compression, which can result in bandwidth and storage savings of as much as 80 percent compared to M-JPEG and 50 percent compared to MPEG-4 (Part 2) compressions.

The Ernitec SX 602 can encode dual H.264 and M-JPEG streams simultaneously in real time to address different live or recording applications.

Power over Ethernet and build in autofocus lens simplifies the installation of the Ernitec SX series cameras, while setup and programming are quickly accomplished using a browser interface. Remote health checks and software upgrades also ensure easy maintenance, as well as the highest reliability and system integrity.

The OnVif compliant APIs provide the necessary flexibility to ensure compatibility with most OnVif supported VMS platforms
