

# Hawk Series

## Indoor And Outdoor Bullet Cameras

**ernitec**

The Ernitec Hawk series includes three very compact bullet cameras.

The Nighthawk SCR363, which has 540 TVL colour, mechanical IR-Cut filter and is completely sealed for outdoor use (IP66). It also includes Lumii technology which secure you clear, contrast rich pictures day and night

The Nighthawk 160 which has built-in IR-illumination for night operation

The Dayhawk 141 which has built-in IR-Cut filter, for day operations with perfect colour reproduction in halogen shop lights.

All cameras are fitted in a sealed outdoor water-proof aluminium housing with removable sunshield (not the Dayhawk 141). They are perfectly suited for surveillance of entrance doors, gates, service stations, train platforms, retail shop surveillance and similar applications.

The cameras are supplied with a bracket for wall or ceiling mount.
