

<u>Quickguide</u>

How to change langauge on: EDNS4000, EDNS6000 & EDNS7000

This document explains how to change the default language to another language.

1) Exit the DigiOp application and go to windows.

Item: 3040-00083

2) Find the NetBackup Agent icon, right click and exit the program (move the cursor over the icons in the lower right corner to locate it)

3) Click on "Regional and Language Options" in the Control Panel.

Regional and Language Options	and the second
Regional Options Languages Advanced Language for non-Unicode programs This system setting enables non-Unicode programs to display menus and dialogs in their native language. It does not affect Unicode programs you want to be all users of this computer. Select a language to match the language version of the non-Unicode programs you want to use. English (United States) © 10000 (MAC - Roman) 10001 (MAC - Japanese) © 10000 (MAC - Arabic) 10000 (MAC - Arabic) 10000 (MAC - Arabic) 10000 (MAC - Hebrew) © Default user account settings Apply all settings to the current user account and to the default user profile DK Cancel	tec watch
🕂 Start 🧝 🤘 🎧	🕉 🔂 💑 🧶 🔂 🖓 🗮 📌 10:09

4) In the "Advanced" tab select the language you require and click OK.

5) A warning will pop up, just select "yes" as the language files are already on the unit.

*** IMPORTANT ***

You will need to restart the DVR two times in order to update all the menus to the new language.

6) Once the DVR has the required language please remember to make a System Backup.
